

VivaBook

Specialized in Extensive Reading!
An Innovative E-book English Library

My Own E-book English Library, VivaBook

VivaBook avoids reading solely for training purposes. It offers engaging English storybooks written by authors and illustrated by artists. We minimized burdensome learning features. We have included only 'high-quality books' so that VivaBook users can fully enjoy reading in English.

Why Read English Books to Children?

Short-form content is trending worldwide, and children today are connected culturally. They are growing up more globally than many adults realize, diverging from their parents' era. In this trend, why do we read English books to children? We encourage every child to develop strong thinking skills, gain insight into different cultures, and respect diversity through reading. Our goal is for each child to become a talented individual who can explore a world of imagination beyond language. This is why we read English books to children.

Vivabook, Our shared Goals and visions

Let's create an immersive English environment for children! With VivaBook, we aim to offer a perfect English-only setting during their sessions. While it might feel awkward at first, consistent exposure to English over time will make it feel more natural.

We want to meet children worldwide! VivaBook's ultimate goal is to connect with children around the globe. We envision children from Korea, Japan, Australia, Thailand, Canada, Tanzania, and beyond coming together to interact and play in the shared space of VivaBook.

We want to enhance children's pride in their English skills! By making English learning enjoyable and fun, we help them build confidence and maintain motivation. They start out nervous but soon find it enjoyable – “I love English stories, and that's me!”

Experiences and Stories from VivaBook Users

A director of an English Study Room

"As the director of an English Study Room, I discovered a solution to children's love for English books without the high costs: VivaBook. At our study room, we prioritize intensive reading, but I also understand the importance of extensive reading. VivaBook allows children to enjoy English books anytime, anywhere, beyond our study room.

It is also perfect for kids who just started learning phonics. They responded very well! The animation effects help them understand the content and stay focused. The short-text books were a hit, and they read them eagerly.

New books are uploaded every week, which is fantastic. The old e-books felt outdated and too much like learning material, making extensive reading a chore.

VivaBook provides a light and refreshing approach to extensive reading. Some children even enjoy exploring it independently, fostering true growth through enjoyable reading experiences."

A Teacher Who Runs a Children's English Reading Club at the Library

"Every Saturday, we hold a children's reading club at the library. Here's one major challenge that I faced. We have plenty of picture books, but not enough English books to meet the demand. This is when I turned to VivaBook for solution!

VivaBook allows kids to enjoy English books at home, bridging the gap between our classes and their personal reading time. They develop a love for stories through our activities and can continue exploring with VivaBook outside of class, without the need to buy or rent books.

One of the highlights is our guessing game where we give hints about the next book using VivaBook's diverse narrations. It's delightful to hear famous voices like Oprah Winfrey reading beloved stories, adding to the charm of VivaBook that the kids really enjoy."

Experiences and Stories from VivaBook Users

A teacher from an English Academy

"VivaBook. While we have regular classes, managing extensive reading was challenging. VivaBook came at the perfect time for our home-linked learning, offering a fresh alternative.

We couldn't lend physical books, and self-guided reading wasn't feasible. VivaBook stands out with its constantly updated collection of famous and new fairy tales, complete with engaging moving illustrations that captivate the kids.

Best of all, VivaBook makes it easy and enjoyable for kids to read outside of class."

A Teacher Who Runs a Kindergarten

"English is part of our kindergarten curriculum, but I initially felt play-based learning wasn't sufficient. Since discovering VivaBook, recommended by a friend, we've seen a positive shift. We now guide mothers on using VivaBook at home.

Mothers say their children enjoy VivaBook, even without understanding English. They appreciate the gentle scene transitions and realistic readings by native speakers. Combining English exposure with phonics has proven beneficial."

A Teacher Who Teaches English Classes for Kindergarten Children at Church

"I teach English to kindergarten children at church. Since space is limited, it was hard to stock many books. I wanted to show original books to my kids, so I explored various options and found VivaBook.

Other e-book libraries were too expensive for our budget, but I liked VivaBook the most because it offers over 1,000 books at a low price. Plus, there are many picture books, so even kindergarten kids who can't read yet can enjoy them.

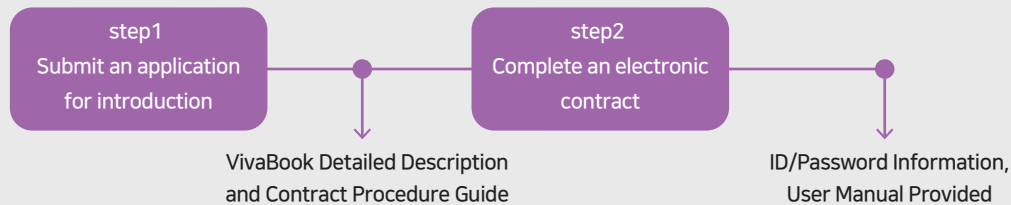

One mother told me her child uses VivaBook for bedtime reading. She said the best time for her child to concentrate is before going to sleep."
